BODY MODIFICATION ENTHUSIAST AND
INTERNATIONAL CONVENTION GUEST

WHO IS TOXII

Known worldwide for having her nose removed by choice. Living the corpse bride aesthetic.

Daniëlle, known as Toxii Bodymod, got her first tattoo at seventeen and knew straight away it would not be the last. From 2019 her transformation went in big steps: eyeball tattoos, implants, a split and blackened tongue, ear modifications, scarification and full blackout work.

Her message is autonomy: your body is yours, and quality comes first. She works only with artists she trusts.
